# MECHANISMS

## SYN727 - Self weight adjusting Synchro

4 locking positions. Self weight adjusting Synchronous mechanism with backrest return prevention safety function with seat slider movement within a 58mm's travel in 5 locking positions. Seat angle:0~5°. Back angle:0~20°.

## Synchro ZEPRON

Synchronized Mechanism. 22° back angle. 11° seat angle. 5 locking positions of the backrest. anti-shock back release system, knob adjusted back tension. Available options: sliding seat plate, integrated seat and travel restriction of the backrest .

## LAS SYSTEM

LAS - lumbar air support - Lumbar pneumatic air support, regulated by a pump on the lower back side. Only for the collection Gala.

## MULTI - MULTIBLOCK MECHANISM

The MULTIBLOCK mechanism allows the user to lock the armchair in several positions or to release the lock for 'free float mode'. The MULTIBLOCK mechanism has an extra function to protect the user from impact by the backrest after the shell lock is released and the chair is switched to 'free float'. For models: COSMOS, SHINY, BLITZ, KASE, EWE, ORGA,

## TILT - TILTING MECHANISM

The TILT mechanism allows the user to lock the armchair in one position for work an to release the lock for the 'free float'.

## MEK- permanent contact

The permanent contact can regulate the angle backrest with the lateral handle and the height backrest with the back handle.

## ASYN MECHANISM

Asynchro mechanism - 3 lever asynchro mechanism, seat and back can be regulated separatly with 2 different levers. The right lever regulate the angle back. The left lever regulate the angle seat.

## GENERAL TERMS & CONDITIONS

Any disputes regarding the conditions outlined in the order confirmation must be reported within 3 days of receipt; otherwise, the confirmation will be considered final.

Antares reserves the right to modify the product for continuous improvement and technical development without prior notice.

The delivery terms specified in the order confirmation are considered confirmed but non-binding. Antares will make every effort to deliver on time in the absence of unforeseen events. However, the customer is not entitled, under any circumstances, to claim damages for late delivery.

Payments must be made according to the agreed terms. Failure to pay may result in Antares charging expenses and applying commercial interest rates.

Goods are shipped at the customer's risk, even if the transaction specifies 'free at destination.' Consequently, it is the customer's responsibility to inspect the package's condition and ensure that the contents match the packing slip. Any visible defects or discrepancies must be reported to the carrier upon unloading and noted on the packing slip. The carrier is responsible for defects or damage.

Complaints about the goods' quality must be submitted to Antares in writing, including the model, defect description, delivery date, and invoice details. Any damage not evident during unloading, but caused during transport, must be reported to Antares in writing. However, a claim cannot be used to justify delaying or suspending payments beyond the agreed deadlines. In the case of a legitimate claim, Antares will only replace defective parts, not the entire product.

The warranty will not cover: incorrect installation, failure to follow Antares' instructions, excessive or inappropriate use of the seats, abuse, or mishandling. Any claims for direct or indirect damages resulting from defective goods are excluded from the warranty. The warranty will be void in case of delayed payments.
