DINKY

DINKY

180 €

seat height	47-62	weight kg	7,5/9
seat diameter	36	volume m ³	0,054

“DINKY” has proven to be beneficial to health and wellbeing of office workers. For decades we have talked about and experienced back issues as a serious problem. Well-designed ergonomic task chairs allow for motion and movement and thus can reduce the back strains and pains. DINKY Seating are unique stools, perch, sit-stand solutions that allows for beneficial movement; sitting/perching in varying positions and at different heights prevents built-up of lactic acids and muscles from fatiguing, reduces the risks of back problems. Colours: F203 Red, F204 Blue, F205 Grey, F207 Black, F208 Green. 3 years warranty.

MECHANISMS

Free floating synchro mechanism AABW+SL

Offset swinging synchronized mechanism with antishock system, seat and angle adjustment and seat slider for separated shell chairs. BACKREST: Swing: 24°. Automatic locking position search. 5 locking positions by means of a button. Safety antishock locking system. SEAT: Swing: 10°. Work position: 0°. Additional forward adjustment on 3 positions of seat angle: 0°, 2.5°, 5°. Seat slider with return spring with a 60 mm seat stroke and 5 locking position by means of a lever. SPRING ADJ. Lateral. Fast with 1/4 turn rotation. Wide with 10 different levels of intensity. For models: MOTION

Self weight adjusting Synchro

4 locking positions. Self weight adjusting Synchronous mechanism with backrest return prevention safety function with seat slider movement within a 58mm's travel in 5 locking positions. Seat angle: 0°~5°. Back angle: 0°~20°.

Synchro ZEP.

Synchronized Mechanism. 22° back angle. 11° seat angle. 5 locking positions of the backrest. anti-shock back release system, knob adjusted back tension. Available options: sliding seat plate, integrated seat, forward seat tilt and travel restriction of the backrest. For models: GALA, OMNIA, VERTIKA, FLUTE, MARILYN, LEI, MARKUS.

SL- Sliding seat for ZEPRON

SL Mechanism - Optional sliding seat. The seat depth can be regulated, 5cm course. In some models the SL is integrated in the chair seat.

LAS SYSTEM

LAS - lumbar air support - Lumbar pneumatic air support, regulated by a pump on the lower back side. Only for the collection Gala.

MULTI - MULTIBLOCK MECHANISM

The MULTIBLOCK mechanism allows the user to lock the armchair in several positions or to release the lock for 'free float mode'. The MULTIBLOCK mechanism has an extra function to protect the user from impact by the backrest after the shell lock is released and the chair is switched to 'free float'. For models: COSMOS, SHINY, BLITZ, KASE, EWE, ORGA,

TILT - TILTING MECHANISM

The TILT mechanism allows the user to lock the armchair in one position for work and to release the lock for the 'free float'.

UP & DOWN SYSTEM

The Up & down system allow to regulate the backrest height in 7 different positions.

MEK- permanent contact

The permanent contact can regulate the angle backrest with the lateral handle and the height backrest with the back handle.

ASYN MECHANISM

asynchro mechanism - 3 lever asynchro mechanism, seat and back can be regulated separately with 2 different levers. The right lever regulate the angle back. The left lever regulate the angle seat.

The fabrics Fame, Cura, Xtreme, Phoenix, Iris, Touareg and Wool are not in stock, we have at our disposal all the colours of the collection. For this reason the delivery terms for the products produced with these fabrics are longer, between 4 and 6 weeks.

GENERAL TERMS & CONDITIONS

Any disagreement on the conditions listed in the order confirmation shall be reported within 3 days of receipt, otherwise the confirmation is deemed final.

Antares reserves the right to modify the product for the purpose of continuous improvement and technical development without prior notice.

The delivery terms specified in the order confirmation shall be deemed confirmed but non-binding. In the absence of unexpected events, Antares will do its best to deliver on time. The customer is under no circumstances entitled to claim damages for late delivery.

Payments must be made according to the agreed terms. In case of failure to pay, Antares reserves the right to charge expenses and commercial interest rates.

The goods are always shipped at the risk of the customer even if "free at destination" is agreed for the transaction. For this reason, it is in the interest of the customer to examine the condition of the package and whether the contents correspond to what is written on the packing slip. Any visible defects and discrepancies must be reported to the carrier at the time of unloading and recorded on the packing slip because the carrier is responsible for defects or damage.

Antares must be notified of any complaints about the quality of the goods in writing, indicating the model, the defect, the date of delivery and the invoice. Damage not apparent at the time of unloading, which was caused during the transport, shall be reported to Antares in writing. A claim shall not constitute a valid reason for the buyer to delay or suspend payments beyond the agreed deadlines. In case of a claim, Antares shall replace defective parts only, not the entire product.

The warranty shall not cover: incorrect installation, failure to observe the Antares instructions, excessive or inappropriate use of the seats, abuse or mishandling. Any claim for direct or indirect damages arising from defective goods shall be excluded from the warranty. The warranty shall be void if there are any delayed payments.
