Design creates culture.  
Culture shapes values.  
Values determine the future.

**RS Barcelona** is a brand of intense living products. Products which, with a high **design** value, high **quality** materials and **functionality**, offer **innovative solutions** through a combination of the fine details of craftsmanship and the precision of industrial manufacturing.

Enthusiasm and optimism does not hurt anyone. On the contrary! It's great to fill our lives with moments to enjoy, however small they may seem. These are the moments that inspire us to design our products. But we do it for nothing more than to bring a small dose of joy into your life.

We are a family business and we don't renounce to our origin. In our own factory in Viladecans (Barcelona), the past, the present and the future go hand in hand. Our team, working closely with our local collaborators, gives volume to ideas and sketches, turning them into design pieces.

---

# Intense Living

It's a **way of understanding life**, in which the most important thing is to look for the **positive** side of every moment and situation.

It's about enjoying what you do. With no limits and with no fear of venturing into uncharted territory. You see everything as a challenge. It's called healthy competitiveness.

However, despite your eagerness to improve and outdo yourself, you also know when to slow down and take a breather. To break up your routine. To devote time to yourself and your loved ones. To live life to **the fullest** and fill it with amazing memories.

Memories that bring a smile to your face. Or a tear to your eye, but one of happiness. That remind you that life is there to be lived intensely and **in company**. RS Barcelona products accompany you, helping you to live those moments. They help you to shed those layers of seriousness and formality and to bring out the child with curious and excited eyes you have in you. They give you that last little push you need to take the great leap forward.

If you are one of those  
who see life without filters,  
eager and excited to find out  
what's around the corner.  
You are an **intense living** person.

---

# History

**RS Barcelona's journey** is the history of a dream in four stages.

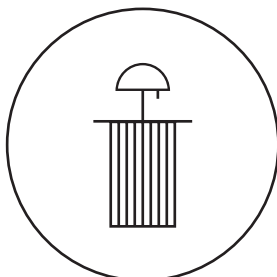

It all began with Rafael Rodríguez Castillo, an employee in metallurgist's, who in 1975 decided to set up his own business. One day, his small workshop turned into an industrial unit, Barcelona, where there was enough space for his two sons to climb aboard.

Along with the second generation of the family, the dream of RS Barcelona took on a new dimension. Manufacturing for others wasn't very satisfying. The creative bug stimulation was impossible to resist and it was scratched through the company's first own product: the RS#2 design football table, a highly personal reinterpretation of one of the classic items of Spanish game culture.

In 2006, the RS2 had earned itself a spot in Barcelona's most important design shop window: the legendary and fabulous Vinçon. A window shop with international renown. Something like that fills you with pride and gives you the courage to take the plunge and manufacture other products, to set your sights on new horizons and new markets. The big leap forward was the first foray into the US market, a market singled out by the brand right from the start. RS Barcelona's catalogue grew little by little and its products began to be featured in leading and trend setter shop windows all over the world. This sort of success can be dizzying. But the trick is getting excited and keep putting your heart and soul into every little challenge.

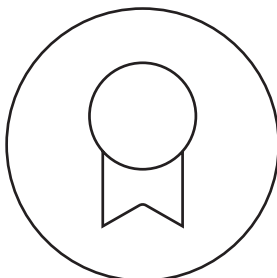

And now we're in the fourth stage of this dream. It's just begun. We are working hand in hand with both young and internationally renowned designers and with a team of professionals who combine expert craftsmanship with years of metalwork experience, finely honed industrial production skills and new technology know-how. Together they come up with new ideas and innovative concepts to create intense living products

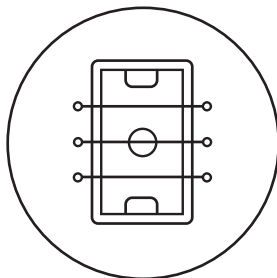

## Design

It's our DNA. It's our essence. Design that goes beyond aesthetics. Design that works. Design that inspires. Design that excites.

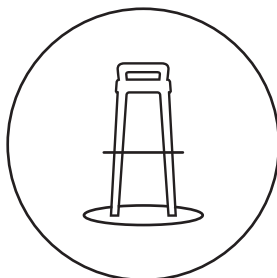

## Quality

We're manufacturers. We control all the production processes. To ensure high quality in every single piece.

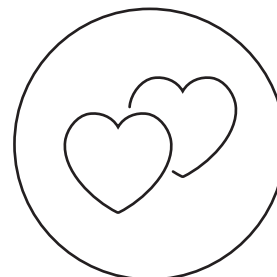

## Play

Play brings us closer. It joint us. It allows us to treat each other on an equal footing once we've hung up the uniform of our daily routine.

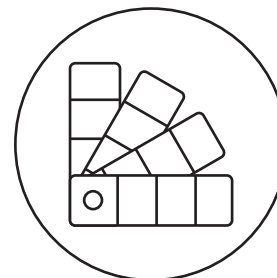

## Functionality

Design and functionality in perfect harmony. We offer you versatile solutions that adapt to all lifestyles and all spaces.

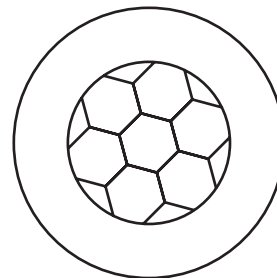

## Sharing

There's no better feeling than sharing the good times with your loved ones. Our main wish is to help you to live those moments, to share them.

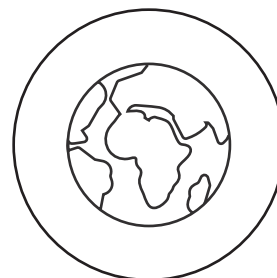

## Customisation

Together we design your needs and expectations. And together we create an exclusive product for you. Let's make it unique.

## Emotions

Laughter. Joy. Challenges. Let out all those feelings. Let out your inner passion. The same passion we channel into our creative work.

## Sustainability Local production

There's no greater commitment to the planet than manufacturing products that will stay with us all our lives. That is our commitment: durability.

# Let's make something unique

If you can imagine it,  
we can do it.

Each product is the sum of unique moments:

- The fledgling idea.
- The first sketches.
- The countless test designs on paper.
- The magical encounter between industry and artisanship.
- Attention to detail.

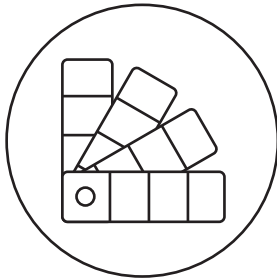

And, to make it even more special, **we can fully customise it for you.**

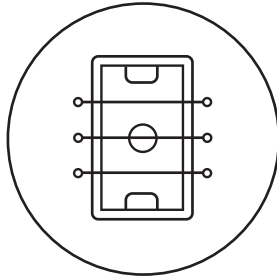

---

# rs-barcelona customisation

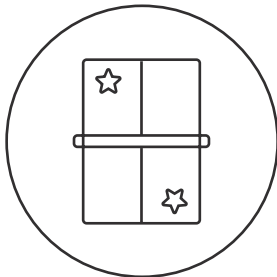

## Your colors

Classic green, subtle light grey, sleek black... or what you want.

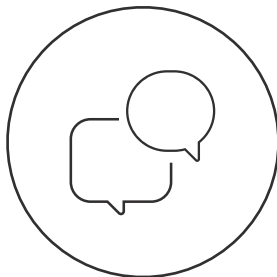

## Your table football teams

What team do you want to play with?  
We can add your band logo or any number or name.

## Your logo can be part of the show

On the playing field itself or on the outside of the structure.

## Anything else?

Let's talk!
