

Price & specification guide

Making space that works

We design and manufacture innovative commercial furniture that adapts to the ever-changing ways in which people effectively work and learn. Allowing you to create space that works harder, smarter and altogether better.

After all, we know that space is a critical asset. The way it's defined influences physical and emotional attitude, creates culture and affects the productivity of those within it. Exactly why we build this philosophy into all of our thinking and all of our products.

Our insight into the needs of modern commercial, educational and public-sector environments gives us an understanding of their evolving working practices. We've identified these as Collaborating, Focusing, Meeting and Socialising. These four cornerstones interpret how people work together, seek sanctuary, access technology and share ideas.

And by understanding how people work, we can create the space that works around them.

Take a look through our portfolio and you'll find a collection of dynamic furniture solutions that are agile, intuitive and support the working practices for all sorts of environments from complex office settings to large-scale education projects and everything inbetween.

We love what we do and we love a challenge, so if you need help creating a more effective and productive workspace – a space that works, get in touch.

See our website, [connection.uk.com](https://www.connection.uk.com) for inspiration, the latest information and downloadable resources.

Rooms

Meeting room

“

With the continuing changing relationship between people, place and technology there is a constant demand for alternative solutions offering physical, virtual and cultural spaces within open working spaces.

Connection

Configure your Rooms design using our 5 step specification guide.

Rooms Base Frame

- 1
- 2
- 3
- 4
- 5

STEP 1 | Build Base Frame
Select your Room frame size.

Rooms Base Build

Adjoining Rooms Base Build

Rooms: 4 post wooden base structure with cladding & lights

Adjoining Rooms: Additional Rooms with wooden cladding & lights can be linked together & share an adjoining wall
Price refers to the additional adjoining room only

Rooms Cladding

- 1
- 2
- 3
- 4
- 5

STEP 2 | Add Cladding Finish
Select your outer cladding finish.
Please note: Upcharge applicable to Egger and Fenix laminate finishes.

Wood Veneers

Over 200+ standard colours, materials and finishes to choose from.
For the full range, download at www.egger.com

Laminate Colours:

Materials:

Wood Effects:

Fenix NTM Laminate Finishes:

- 1
- 2
- 3
- 4
- 5

STEP 3 | Ceiling Preferences

Select light beam & baffle rail colour.

Add Ceiling Baffles

Felt Baffle Colour Options

Mid Grey

Valchromat Baffle Colour Options

- 1
- 2
- 3
- 4
- 5

STEP 4 | Add Power

Select your power options and indicate positioning. *Alternative power positions available if required.*
Please note: A maximum of 4 power modules can be incorporated into the structure.

Please note: Both power module and cover plate are supplied in black.

Power Key

Each power unit comes with a 5m power cable and a single country specific plug. If data units are selected each data cable is 3m. It may be possible to consolidate all of the power units to run from a single power cable. Please contact customer services.

Indicate Positioning

STEP 5 | Add Walls

Select your wall options.

Please note: Adjoining rooms only require a maximum of 3 wall panels.

Privacy Walls

Upholstered Acoustic Wall

Fixed acoustic wall with Camira Sonus upholstered plywood frame & internal acoustic foam

- 2.4, 3.0, 4.0 panels
- Double sided panels
- Select Fabric from Camira Sonus range www.camirafabrics.com

Glass Wall

Fixed glass wall

- 2.4, 3.0, 4.0 panels

Curtain Wall

Single Vescom Fogo sheer curtain & curtain rail

- 2.4, 3.0, 4.0 panels
- Select Curtain fabric
- Select fabric from Vescom Fogo or Ellis range www.vescom.com

Please note: The installation of Rooms with any glass elements can only be carried out by Connection or an approved sub contractor. There is an additional charge for this service. Please call customer services or ask your account manager for a quotation.

Power & Data Specifications – Peak Power

Power Module Positions

Peak Power 60 is a new 6 socket power and data connectivity unit.

Installation:

Peak Power is designed to fit into a 193mm x 132mm cut-out, suitable for table tops 10mm-30mm thick, and is secured by the supplied 4 x screw clamps.

Please note: The prices below reflect 2x power types within 1x Peak Power unit. Please specify which power types you require within the Peak Power unit.

Power Cable	5.0m	5.0m	5.0m	5.0m	5.0m

Co.Table

The following diagrams illustrate the standard positions for Peak power modules and lamp stems for Co.Table power. Please contact your local representative for more information.

Rooms

The following standard power module positions can be applied to any Rooms configuration; for power types A-E. Any amount of legs in each configuration can hold power, but only one position available per leg. Please contact your local representative for more information.

Ordering Guidelines

Pricing

All prices shown in CHF are subject to VAT. Prices are valid from 1st December 2023.

Terms of Payment

Net 30 days from the date of invoice. Connection retains title and ownership of all goods until they have been paid for in full.

Acknowledgement of Orders

All orders will be acknowledged. Please check acknowledgements and contact customer services as soon as possible if there are any amendments to your order. Connection cannot be held responsible for customer error or omissions. Once an order acknowledgement has been sent, the order will go into production. Any amendments received after this date may be chargeable.

On receipt of a clean order, an order acknowledgement will be issued within 48 hours. Should further information be required to place your order, you will be contacted within 24 hours of the enquiry being received. We will clearly indicate the information that is required for the order to be placed.

Ordering Procedure

Orders must be placed in writing and include the following:

- Product code (with options e.g. mechanism, arm-type and colour, base type and colour)
- Fabric range and code
- Quantity
- Delivery address
- Desired delivery date

Please make all orders as clear as possible as this will enable us to provide a more efficient delivery.

Delivery Lead Times

Standard products: Our standard lead time is 6-8 weeks (plus delivery in normal trading circumstances), from receipt of a clean order. The lead time will depend on a number of factors including fabric choice and size of order. We recommend that you state a required delivery date on your purchase order.

Special products: Lead times for special options are between 8 and 10 weeks, depending on the nature of the special request. Should an order include both standard and special product, the lead time on all products will default to the longest lead time.

Please contact our customer services team or your sales manager for current lead time information.

Once an order is received, Connection will provide an acknowledgement containing a week-ending delivery date. Please note that if the dates on your order acknowledgement do not meet your expectation, you should always contact the customer services team who are happy to explore potential ways to reschedule or improve the dates.

Delivery is in addition to the lead times above and lead times begin once the order acknowledgement is issued.

Specification

All dimensions and weights are approximate; whilst every care is taken to ensure their accuracy, Connection cannot be held responsible for errors. Connection reserve the right to make, without notice, any changes to materials, specifications or design of the products which it considers to be reasonable or desirable. Such changes shall not affect the validity of the contract. Connection reserves the right to amend or change the pricing structure within this publication. Our website has our full policies on guarantee, delivery, continuity of supply and our customer service charter.

Fabric Specification

All products manufactured by Connection are upholstered and assembled to the highest standard. However, due to the characteristics and performance of certain fabrics the final appearance and finish on the product may be adversely affected by the fabric specified. Where a material is specified for a product which may have properties that do not meet the necessary requirements, our customer service team will contact you, advising you of any issues. If you decide to proceed with the chosen fabric, then Connection cannot be held responsible for issues relating directly to the material.

Whilst every effort is made to ensure parity of colour on our fabric finishes, the company cannot guarantee an exact match on any fabric.

Where a customer is supplying their own fabric, and the fabric does not appear in the Connection fabric matrix the following shall apply:

- £150 patterning charge to cover creating templates
- A quantity of fabric must be supplied to Connection to facilitate creating new templates - 5m per soft seating product; 2m per task/meeting product. For larger sofas a greater quantity may be required. This fabric will be used in the templating/design process
- Once the fabric is approved, the order will be processed on standard lead time (starting from the date of approval)
- In the event that the fabric is deemed unsuitable for the requested product, the patterning charge will be refundable

Delivery & Returns

Delivery Schedules

All standard Connection deliveries are made on tailgated vehicles to the designated warehouse of the customer. The standard delivery service operates Monday to Friday, with deliveries to a customer's warehouse between 7am and 7pm.

Connection delivers to mainland UK postcodes on a fortnightly schedule with the majority of areas delivered weekly at our discretion. On receipt of your official purchase order, an order acknowledgement will be returned to you detailing the week ending your delivery will be made. Our customer services team will contact you between 24 and 48 hours prior to book the delivery in.

Small Order Charges

For a customer warehouse delivery, where the net order value is below £500, a charge of £50 will be applied. All small order deliveries will be made in line with our scheduled tailgate delivery.

Direct Deliveries

Where requested, deliveries can be made direct to site. For specific deliveries with a net order value between £5,000 and £10,000 there will be no delivery charge providing the delivery is made in line with our scheduled tailgate delivery.

For all specific deliveries where the net order value is below £5,000, a fee of £150 will be applied to all direct delivery requests. The delivery day for such deliveries will be in line with our scheduled tailgate delivery program.

Requests for a specific delivery date and time can also be facilitated; however additional charges will be made to meet this requirement. Details of the specific costs will depend on the size of delivery and the date required. Full details of these can be obtained through our customer services team.

Large Deliveries

On deliveries where the individual delivery is above £10,000 net order value, then the customer can specify the delivery date and time. These deliveries will not be chargeable, providing the date and time specified is Monday - Friday between 8am and 5pm.

Connection delivers products on vehicle types most suited to the size and specification of the products being delivered. Where the customer places restrictions on the type and size of vehicle used, additional charges will be applied to the delivery to cover such requests.

Installation

All our deliveries are based on a tailgate service, with unloading to the rear of the vehicle. Connection can, with sufficient notice, offer an installation service. This additional service is chargeable and details of the specific charges can be obtained through our customer services team.

Order Postponement

Connection will not accept postponement of orders below a value of £5,000. Postponement of an order with a value above £5,000 is permitted, but must be requested within a minimum of 10 working days' notice from the advised delivery date. If the postponement of an order is advised to Connection with less than 10 working days' notice from the advised delivery, Connection will raise charges to cover for storage and handling of the products on order. All requests for postponement must be in writing.

Checking the Delivery

All items must be individually counted. Our logistics partner will not accept any signatures marked "UNCHECKED". Please verify the number of items received with the number shown on the delivery document which you are required to sign. You must only sign for the actual number of items received, any discrepancies to the advised quantities must be written on the delivery documentation. Neither our logistics provider nor ourselves will be held responsible for any shortages found after the delivery paperwork has been signed.

Damaged Goods

Any visible damage on delivery must be signed as such on the delivery documentation. If any items should arrive damaged, including water damaged, you must sign the carriers note as "damaged". All damages must be notified to our offices within 48 hours of the delivery. Neither our logistics provider nor ourselves can accept responsibility if we are informed after this time period.

Goods for Collection

Only goods that have been pre-advised for collection will be accepted by our delivery driver. All goods that are to be returned to Connection must be advised to our customer services team 48 hours before the date of your standard delivery.

Returns

No allowances will be made for packing and handling charges on furniture being returned to us. We will accept no merchandise returned to us for credit. If the merchandise is defective and the return is authorised, we will replace or repair the items involved.

Guarantee

Warranty Statement

The company warranties are valid only on standard product for a period of five years; this period may be increased, subject to which products, and will need to be confirmed in writing. The warranty is subject to the following:

A) What Is Covered

When full payment has been received for the goods.
 Products used in a single 8-hour shift in an office, or appropriate environment.
 Structural and moving parts under fit-for-purpose use and service, and where the product has been used for the purpose it was designed for.

B) What Is Not Covered

Normal wear and tear.
 Failure to apply, install, reconfigure or maintain the product in the appropriate way and/or failure to follow Connection's installation instructions.
 The product has been used for the purpose which it has been designed and has not be subject to misuse, unauthorised repair, replacement, modification or alteration in any way.
 Natural variations in wood grain or the presence of character marks. Changes in surface finishes, including colourfastness due to ageing or due to exposure to light.
 Products considered by Connection to be consumables (e.g. batteries, lamps etc.)
 Fabric and electrical components (see 2 and 3).
 Connection does not warrant products that are exposed to extreme environmental conditions or have been subject to improper storage.
 Connection does not warranty any products that have been subjected to incorrect cleaning methods and where the user has not followed the manufacturer's instructions.

Fabric

Fabric quality and performance is not covered by Connection's warranty when specified by our customers or a designer; any claims arising from defective fabric would sit with the manufacturer of the fabric. Connection will facilitate dialogue with the manufacturer and assist in any genuine claim, but in no way accepts liability. However, in the case of COM, the customer will be required to take full responsibility and Connection will not enter into any communication regarding faulty fabric.

Electrical Components

Connection does not cover any electrical components installed in its furniture; any such claim will be directed to the manufacturer. Connection will facilitate dialogue with the manufacturer and assist in any genuine claim but in no way accepts liability. All installations of electrical components in Connection products, unless carried out by an approved engineer, will be the responsibility of the customer who will also be responsible for all testing.

Procedure For Making A Warranty Claim

A) UK

In the first instance, contact should be made with our sales office sales@connection.uk.com with a brief outline of the claim. Connection will send out a Non-Conformance form and this need to be completed and returned with appropriate supporting imagery. Connection will respond within two working days, confirming if the claim is acceptable and accompanied with a plan of action which may involve the product being collected by Connection or an engineer visiting site. In both cases this will be carried out during normal working hours and the customer must not impede the process in any way. In the event that the claim is rejected, Connection will provide a suggested plan and costs to rectify any defects.

B) Europe And North America

In the first instance, contact should be made with our sales office sales@connection.uk.com with a brief outline of the claim. Connection will send out a Non-Conformance form and this need to be completed and return with appropriate supporting imagery. Connection will respond within two working days, confirming if the claim is acceptable and accompanied with a plan of action. Connection will supply the components/products to rectify/correct and ship to a warehouse designated by the Customer. The Customer is responsible for any duty and the installation of the new components/products and disposal of any unwanted items.

Where sales are transacted on an ex-factory basis, the Customer accepts that the product has left the factory in good condition and any subsequent claims will not be considered by Connection.

Damages

Any product damaged on delivery must be signed as such on the delivery documentation. If any items should arrive damaged, including water damage, you must sign the carrier's note as "damaged". All damages must be notified to our offices within 48 hours of the delivery. Neither our logistics providers nor ourselves can accept responsibility if we are informed after this time period.

CSR, Sustainability & The Environment

In all our core business operations, our aim is to ensure we act ethically and responsibly by adopting best practice within our **Corporate Social Responsibility (CSR)** policy and this is embedded into all our practices to the benefit of all our stakeholders. We consider these stakeholders to be our employees, shareholders, customers, suppliers and the communities within which we operate.

We are committed to the following core values:

- **To address the needs and aspirations of our employees, whilst considering their health, safety and promoting a good work/life balance**
- **To minimise the environmental impact of our operations and enhance the sustainability of our products**
- **To adopt a good relations strategy with our customers and strive to achieve agreed standards of safety and quality**
- **To ensure we are honest and fair in all our dealings with our suppliers and aim to procure all our goods and services in an ethical manner**
- **To support our communities by being sensitive to their needs, responsible in our operations and through the adoption of charitable causes**

Product Information

We consider the impact upon the environment throughout all of our processes, from the initial design of the product, through its manufacture and delivery, right up to disposal when it has reached the end of its useful life. We calculate and hold data on all our products, detailing use of recycled content and recyclability. This information is compliant with the SKA rating criteria.

Carbon Balanced Printing

Carbon balanced paper is a simple way to reduce the impacts of carbon in the environment. This is where the average carbon impact for paper has been balanced or offset by the World Land Trust, through the preservation of high conservation forests, saving threatened habitats and their biodiversity.

All of our printed materials as a business are now carbon balanced.

Carbon Offset

We are proud to be a carbon neutral business. Our aim is to reduce our impact on the environment and make a positive difference which benefits the planet and all our stakeholders. Our ambition is to become net zero by 2050. We work with Forest Carbon who lead the way in UK woodland creation for carbon capture. Through the planting of over 13 million new trees since 2006, their projects are removing nearly 3 million tonnes of CO2 from the atmosphere, as well as providing a host of other benefits to society, including flood mitigation, enhanced biodiversity and increased public access. www.forestcarbon.co.uk

Export Information

Connection is a UK based company, with a brand that has developed overseas. On our website there is a French, German and The Americas section, where you can find details of our representatives in these countries. Additional representatives outside of the UK can be found on our contact page.

Here are brief guidelines on ordering for export:

- All goods are exempt from UK VAT
- The customer is responsible for all import tax duties unless agreed in writing by Connection
- Payment terms are net 30 days from date of invoice. Standard export terms are pro forma payment prior to despatch unless otherwise agreed to by Connection in writing
- Our ordering processes and acknowledgements are standard for exported goods and UK goods
- Prices will be quoted in Sterling, Dollars or Euros and are based on ex factory unless otherwise agreed by Connection in writing

Delivery

Connection utilise state of the art logistic systems to facilitate deliveries to our customer's premises.

Our customer services team will advise of an estimated time of arrival once the goods have been collected from Connection for shipment. A confirmed delivery date can only be given once all local import duties have been paid.

Delivery to EU Countries

Connection predominately offer ex works pricing on all export orders, however where required we can facilitate the arrangement of transport. Where a customer's delivery is required to be arranged by Connection, the following charges are applicable.

Small Order Charges

For a customer warehouse delivery, where the net order value is below £2000, a charge of £150 will be applied.

Standard Order Delivery Charges

Where requested, Connection can arrange deliveries direct to site. Prices for these are specific to a customer request, and as such will be priced on application. Connection cannot arrange installation for any Export deliveries, this needs to be arranged locally by the customer.

Order Postponement

Where a customer advises Connection of a postponement of an order giving a minimum of one weeks notice from the scheduled collection/delivery, no charge will be made providing the order is rescheduled for collection/delivery.

If the postponement of an order is advised to Connection with less than one weeks notice, Connection will raise charges to cover for storage and handling of the products on order. All requests for postponement must be in writing.

Connection package products for export customers based on them being loaded directly onto a designated container. Where the product is to be shipped through a groupage network, then Connection have designed and developed additional "sea worthy" packaging which is strongly recommended to be used on all such shipments. This packaging does have an additional charge applied to the shipment, details of which can be obtained through our customer services team. If customers do not request this additional packaging for groupage items as recommended, then Connection cannot be held responsible for any damages caused through the transportation of the product.
